

Lid Corner Splint v2 - fits the 4.1mm gap

ISOMETRIC

END VIEW - C channel

CORNER SPLINT v2

ASUS X541N - side edge only

WHY v1 FAILED

v1 wrapped the hinge edge too. Its 6mm wall had to sit in the 4.1mm screen-to-deck gap. It could never have fitted.

v2 FIX

Wraps the SIDE edge only - open air there, no constraint. Starts flush with the lid bottom edge, so 0.0mm enters the 4.1mm gap. Verified, not assumed.

SIZE

v1: 95 x 60 x 28 mm

v2: 31 x 80 x 17 mm

STACK

front lip 1.5 mm

channel 9.8 mm

rear jaw 6.0 mm

total 17.3 mm

HARDWARE (per side)

4 x M3 heat-set insert

4 x M3 set screw (8-12mm)

1mm TPU / foam pad

Lid 7.3mm is INFERRED, not measured.
Channel takes 6.0-8.3mm; screws
absorb the error.

Free/replace the stiff hinge first.

SIDE - 80mm grip up lid edge
